lógica, como ciencia de especialización. Así, el "Proceso Histórico del Uruguay y esquema de su sociología", que escribí y publiqué hacia 1926, siendo aún muy joven, exégesis de nuestro génesis y ~~evolución~~ evolución, teniendo en cuenta los grandes factores determinantes, ~~de carácter~~ geográficos, étnicos, económicos, psicológicos, culturales y otros, en su complejo funcional, como estudio de visión y exámen historiográfico, intrahistórico, así encerrado en su síntesis, ha sido éste el primero que se haya realizado en el Uruguay, y sigue siéndolo a estas alturas, después de cuarenta años de su aparición, el único existente en su género, en la bibliografía nacional. Se han realizado en el país algunos <sup>valiosos</sup> estudios analíticos, ~~de esta índole~~ de esta índole, pero ~~pero~~ es decir, relativos a momentos o ~~aspectos~~ a aspectos distintos del proceso, así en lo que respecta al pasado como a la época contemporánea; pero cuadros de conjunto, de síntesis, no. Pero el honor que me cabe no es el de este ~~libro~~ <sup>examen y</sup> libro, por lo demás, agotado en sus tres ediciones, sino el hecho de que en él se establezca por primera vez y de modo categórico algunos conceptos fundamentales acerca de la realidad histórica nacional, lo que podríamos llamar la ~~conciencia~~ conciencia histórica ~~del país~~ del país.

Y bien; este libro de <sup>examen y</sup> crítica historiográfica, está hecho, como el de historia y crítica cultural y literaria (que también es, en parte, sociológico), sobre base intuitiva. Por que caso que en este como en todo, la intuición fenomenológica es lo necesario. Los investigadores, los documentales, son los que proveen del elemento, del material, que que la crítica historiográfica requiere para su ejercicio. <sup>sin embargo,</sup> No son ellos mismos los que dan esos resultados. Ambas actividades se complementan, pero son distintas.

Este criterio es <sup>asimismo</sup> ~~aplicable~~ aplicable a otros libros como "El Problema de la Cultura Americana", ~~publicado~~ publicado en el 43 y en el cual, el método intuitivo-inductivo se aplica a la interpretación de la realidad <sup>histórica</sup> ~~continental~~ continental, en el plano de <sup>los valores de</sup> ~~la~~ la cultura, pero no en extensión, sino en profundidad, pero en ese tema de lo continental, cuento con ilustres competidores de fama, descontando a la cantidad de charlatanes ~~varbalistas~~ varbalistas, que proclaman sus meras retóricas.

pero no pondré término a estas disertaciones auto-bio-críticas -sin referirme al último de mis trabajos, publicado en el 59, donde me he apartado <sup>así</sup> del tema literario como del ~~tema~~ <sup>tema</sup> sociológico. El libro "Cristo y Nosotros", que trata del problema religioso en sus relaciones con la cultura contemporánea, es un ~~libro~~ <sup>libro</sup> apologético, sin duda, es decir, polémico, pero ~~constituye~~ constituye un exámen a fondo de los fundamentos filosóficos del Cristianismo, desde el punto de vista del humanismo intelectual de nuestro siglo; o, más exactamente, vice-versa, una crítica de la cultura huma-

mística laica de nuestro tiempo, ~~fundamentalmente~~ ~~basada~~ ~~en~~ ~~el~~ ~~triple~~ ~~aspecto~~ ~~filosófico~~, ~~científico~~, desde el punto de vista de la concepción religiosa, cristiana, de la vida.

filosófico

El examen procura impostarse en una rigurosa objetividad, excluyendo toda cuestión de orden subjetivo y personal, es un estudio del problema sin interferencia alguna confesional, y destinado, como se declara, no a los creyentes, sino a los no-creyentes, a los agnósticos. Pero es evidente que a través de su objetividad rigurosamente intelectual, se va dando, indirecta, implícitamente, el propio proceso mental del autor, su propia experiencia, en el tránsito del agnosticismo a la fe. Es decir que, los argumentos de controversia que el autor propone a la conciencia del lector son los mismos que se ha propuesto a sí mismo propia conciencia, las razones que ha tenido para llegar a la autoafirmación y al autoconvencimiento de la verdad religiosa, tal como la expone. El libro significa por tanto, un testimonio experiencial, el de un intelectual de nuestro siglo, que se ha formado y ha vivido durante la mayor parte de sus años, dentro del agnosticismo filosófico-científico que predomina en el campo de la cultura laica, lo que le confiere una autenticidad de cosa viva, vivencial, y no meramente especulativa, ni abstractamente dogmática, existencial detrás de la normativa objetividad de su forma.

He dicho la palabra existencial. Ello expresa lo más aproximadamente posible, nuestra posición y la tesitura del libro, que, en el orden filosófico tiene un entronque pascaliano. Reconociendo y respetando altamente la sabiduría teológica tomística, en su módulo intelectualista, por temperamento y modo propio de ser nos incorporamos a la corriente intuicional, que es también la existencial, iniciándose en el neo-platonismo de San Agustín, halla, modernamente, en el genio de Pascal, su más lúcida concreción de pensamiento. Y digo de Pascal, no de Kierkegaard, por que éste, ya, virtualmente, y en lo que tiene de mejor, está contenido en Pascal, salvo en aquello que es patetismo romántico, un tanto perdido en la selva oscura del subjetivismo metafísico protestante, ~~en el~~ ~~campo~~ ~~religioso~~, ~~donde~~ ~~hay~~ ~~de~~ ~~observarse~~ ~~un~~ ~~patetismo~~ ~~romántico~~, ~~un~~ ~~tanto~~ ~~perdido~~ ~~en~~ de acuerdo con la enseñanza de San Agustín: "En lo necesario, la unidad; en lo demás, la libertad; en todo la caridad".

No permitiré una última información, de carácter personal (lícitamente planeado antecrítica biográfica) .Actualmente, no tengo sino dos pequeños libros de calceera: los "Pensamientos" de Pascal y el Kempis. Y con estos <sup>grandes</sup> nombres ~~tan grandes~~, asociados al río, pequeño, pongo punto final a estas disertaciones.
